

“Metagenomics for pathogen detection”

Dr. Ramzi Fattouh PhD, FCCM
Clinical Microbiologist
Lead, Clinical Molecular Microbiology
Unity Health Toronto

Dr. Fattouh completed a postdoctoral fellowship in Clinical Microbiology from the University of Toronto and is a Fellow of the Canadian College of Microbiologists (CCM). Dr. Fattouh joined Unity Health Toronto as a Clinical Microbiologist in 2016. He is also an Assistant Professor in the Department of Laboratory Medicine and Pathobiology at the University of Toronto.

Dr. Fattouh was a member of the clinical microbiology whole genome sequencing quality working group led by Public Health Ontario Laboratories, is an examiner for the Canadian College of Microbiologists, and is presently a member of the Board of Directors of CACMID and NMG. Dr. Fattouh’s clinical and academic interests include antimicrobial resistance detection and the development and application of novel molecular-based diagnostics.
